

NEW PERFECTION KITCHEN PRIMER

PAGE 6

LESSON 3

What Have We Here?

It is a chimney. But haven't I seen it before? Yes, it is part of the New Perfection Oil Cook Stove, which is now serving over 2,000,000 homes. It is an important part, too, for this long blue chimney makes the New Perfection odorless, smokeless, and trouble-proof.

Like a gas stove? Better, in some ways. It's less expensive—burns only about six cents worth of kerosene a day. And it's portable—you can do your cooking wherever it is most convenient.

1916 model New Perfections have the new patented reversible glass reservoir and many other improvements. They are sold in 1, 2, 3, and 4-burner sizes by dealers everywhere.

ACUTE AND CHRONIC RHEUMATISM

The exact cause of rheumatism is unknown, though it is generally believed to be due to an excess of uric acid in the blood. It may be also said with equal truth that no remedy has been found which is a specific in all cases. In fact the literature of rheumatism shows that there are but few drugs which have not been given a trial. In the hands of one observer we find that a certain drug has been used with the utmost satisfaction; others have found the same remedy to be a great disappointment. All physicians however agree that every method of treatment is aided by the administration of some remedy to relieve the pain and quiet the nervous system and Dr. W. E. Schultze expresses the opinion of thousands of practitioners when he says that anti-kamnia tablets should be given preference over all other remedies for the relief of the pain in all forms of rheumatism. These tablets can be purchased in any quantity. They are also unsurpassed in headaches, neuralgia and all pains. Ask for A-K Tablets.
